Mr. Dearing,

I understand you are having trouble locating all the Peabody sampling results within the FOIA online site.

In order to ensure you have the information you seek regarding the FOIA 2013-006046.

I am attaching the July and August sampling results which EPA received from Peabody in response to the March 22 CWA 308 request.

I will send the other sample results in a separate email , due to the size of these files.

Please bear in mind, that 2012 was an extreme drought year, and it drastically reduced the amount of discharges at these outfalls, especially in the first few months of sampling. We asked Peabody for additional samples in the last month, to assist in making it a better assessment and they agreed to take more than the minimum samples required per original agreement of June 28.

If you should have any questions regarding this email, feel free to call me.

Thank you,

Janet
